

Application No. 10/777,220  
Group Art Unit: 3744

Amendment under 37 C.F.R. §1.114  
Attorney Docket No.: 042102

**REMARKS**

Entry of this Amendment in accordance with the provisions of 37 CFR § 1.114 is respectfully requested, noting that this Amendment is filed as a Submission with a Request for Continued Examination (RCE) on even date herewith. New claims 5 and 6 are believed to recite patentable subject matter and are supported by the specification, e.g., page 11, lines 13-14 and 21.

Applicants submit that their original claims are patentable over the cited art because it does not disclose “substantially the same” ventilation areas. Although the Examiner asserts that such a relation would be obvious, he has not identified any motivation for such a relation.

If the Examiner believes that there are any other points which may be clarified or otherwise disposed of either by telephone discussion or by personal interview, the Examiner is invited to contact Applicants’ undersigned attorney at the number indicated below.

If this paper is not timely filed, Applicants respectfully petition for an appropriate extension of time. The fees for such an extension or any other fees that may be due with respect to this paper may be charged to Deposit Account No. 50-2866.

Respectfully submitted,
